DETAILED ACTION

Election/Restrictions

Applicant's election without traverse of species A of figure 1 in the reply filed on 7/6/06 is acknowledged.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1,2 and 4-6 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The claimed subject matter of "a reservoir that is internal to said first heat pipe" renders the scope of the claimed indefinite since applicant has elected species A of figure 1 is the elected invention. However, this claimed subject matter is not directed to the elected species of figure 1 but the non-elected species of figure 4, wherein the reservoir is internal to the first heat pipe. Regarding claim 6, it is not clear how the reservoir can be both internal and external to the first heat pipe.

Claims 1,2 and 4-6 are further rejected as can be best understood by the examiner in which the limitation that the reservoir that is internal to the first heat pipe, is not considered since this subject matter is not within the scope of the elected species 1.

Double Patenting

A rejection based on double patenting of the "same invention" type finds its support in the language of 35 U.S.C. 101 which states that "whoever invents or discovers any new and useful process ... may obtain a patent therefor ..." (Emphasis added). Thus, the term "same invention," in this context, means an invention drawn to identical subject matter. See *Miller v. Eagle Mfg. Co.*, 151 U.S. 186 (1894); *In re Ockert*, 245 F.2d 467, 114 USPQ 330 (CCPA 1957); and *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970).

Art Unit: 3753

A statutory type (35 U.S.C. 101) double patenting rejection can be overcome by canceling or amending the conflicting claims so they are no longer coextensive in scope. The filing of a terminal disclaimer cannot overcome a double patenting rejection based upon 35 U.S.C. 101.

Claims 1,2,4,5 and 6 are rejected under 35 U.S.C. 101 as claiming the same invention as that of claims 1-2 and 4-6 of prior U.S. Patent No. 6,675,887. This is a double patenting rejection.
